ANYONE WHO WORKED ON THE PROJECT TO DEVELOP THE \$JUPYDIUM ECOSYSTEM IN ANY WAY, NOR ANY SERVICE PROVIDER, WILL BE LIABLE FOR ANY TYPE OF DIRECT OR INDIRECT DAMAGE OR LOSS THAT MAY BE SUFFERED IN CONNECTION WITH THE \$JUPYDIUM TOKEN.

➤ *What is Jupyidium?*

It is a meme token with possible future initiatives, inspired by a merger between the two largest decentralized exchanges on the Solana network: Jupiter and Raydium.

➤ *Project purpose*

The Jupyidium team proposes to end the trend of meme tokens that come onto the market and die or their price plummets in a few hours or days.

The goal is to foster and satisfy the need for a token with sustained long-term momentum and engagement.

Advantages of the Solana for explosive growth of the Jupydium ecosystem

Ultra speed

- ✓ *Solana can process up to 65,000 transactions per second (TPS), far surpassing Ethereum and Bitcoin.*
- ✓ *Its blocking time is 400 milliseconds, which guarantees almost instant confirmations.*

Low commissions

- ✓ *The average cost per transaction is 0.00025 SOL (less than one cent).*
- ✓ *Ideal for DeFi, NFT and meme projects, where fees can be an issue on other blockchains.*

Scalability without fragmentation

- ✓ *Solana uses Proof of History (PoH), an innovative mechanism that allows transactions to be processed in parallel.*
- ✓ *It does not require fragmentation, which reduces complexity and improves network stability.*

- *Why did Jupyterium decide to launch on pump.fun?*

Each token launched undergoes a fair launch process with no pre-sales or team assignments. This setup minimizes the risk of internal early adopters selling their tokens and harming other investors. Additionally, Pump.fun employs a burning mechanism where a portion of the liquidity is burned once certain market capitalization milestones are reached. This mechanism helps maintain a healthy token ecosystem and reduce the likelihood of market manipulation.

Jupydium Tokenomics

- **90% MARKET SALE**

Total amount of Jupydium tokens that investors will be able to acquire after it enters the market.

- **6% GROWTH AND MARKETING**

It will be used for development and/or advertising and/or associative purposes that may promote the active growth of the project.

- **2% TEAMS AND DEVELOPERS**

It will be used to cover expenses, fees and overtime dedicated to members of the Jupydium project.

- **2% BURNING TOKENS**

20,000,000 Jupydium will be burned throughout the year 2025.
